from main strategic  
partnerships\*

## Analysis of consolidated sales by business lines

## Analysis of consolidated sales by geographical area (sales of products)

\*Definition of these terms are given in the glossary on the last page of this document.

Limagrain is a global company with deep local roots. Our parent company is an agricultural cooperative based in the Limagne-Val d'Allier plain, in the heart of Central France's Auvergne region, while we are an international seed and agri-food group with more than 9,600 employees working in 53 countries.

At Limagrain, we breed, produce, and sell high value-added field and vegetable seeds, drawing on our long history of expertise in plant improvement. Uniquely, we also have agri-food chain businesses, in France and internationally, to transform the produce of the Cooperative's 1,300 farmer members.

The world faces escalating climatic, environmental and demographic challenges, and our various businesses help address its food and farming issues.

## GLOSSARY

- **Sales:** Sales reported in this document correspond to revenue from ordinary activities.
- **Sales invested in research & development:** The sales of seeds for activities intended for professional markets and integrating 50% of AgReliant's Business.
- **Strategic partnerships:** Strategic partnerships in which Limagrain holds more than 30% of the capital: AGT, AgReliant, Canterra Seeds, Carthage Génétique, Hengji Limagrain Seeds, Prime Seed Co, Seed Co, Soltis.
- **The "Cropping Systems Matrix"** is an experiment launched in 2022 by Limagrain Coop in Limagne-Val d'Allier, scheduled to last 12 years. It aims to field test innovative cropping systems to maintain agricultural productivity while responding to climate hazards and regulatory changes.
